

SEMINAR 1

INTRO

- a) Profesor curs: prof. Czibula Istvan
- b) Pagina disciplinei, materiale curs: <http://www.cs.ubbcluj.ro/~istvanc/fp/>

SETUP

1. Download python & a python IDE

- a) Python: <https://www.python.org/downloads/>
Don't forget to check the "Add Python to PATH" option during the installation (prima fereastră).
- b) PyCharm: <https://www.jetbrains.com/pycharm/download/#section=windows>
or
Eclipse: <https://www.eclipse.org/downloads/> + <https://www.rose-hulman.edu/class/csse/resources/Eclipse/eclipse-python-configuration.htm>

2. Deocamdată, pentru rezolvarea problemelor de la primele laboratoare & primele seminarii/cursuri, vom folosi Python IDLE (type **IDLE** in search bar to open) . IDE-ul (Eclipse, PyCharm, VS Code) va fi folosit ulterior când aplicațiile devin mai complexe.

TODAY

Practice basic Python syntax + feature driven development

Exemple sintaxă Python găsiți și în primul curs:

<http://www.cs.ubbcluj.ro/~istvanc/fp/curs/Curs1.pdf>

Alte tutoriale:

- Pretty nice summary of Python basics with examples: <https://realpython.com/python-first-steps/>
- Official documentation: <https://docs.python.org/3/>
